Dear Richard,

**RE – Our Wedding Day 11<sup>th</sup> July 2009**

This letter is to thank you for the part you played in our lovely wedding day and your input that made our day even more special.

The chocolate fountain was absolutely perfect and really did make our wedding day memorable. It was such a surprise for all the guests when they saw the BIG one and dipping items perfectly set up and then the additional treat of the white chocolate one was a double delight.

You were very punctual, smartly dressed and it was great to see you the day before ensuring you knew where you were going to be and ensuring that there were no hidden problems on the day. Everyone enjoyed the fountains and we definitely had value for money as the memories and photos were amazing and will stay with us forever. You also ensured everyone knew what to do but where not regimented with rules as we have experienced in the past.

We would not change anything about the wedding it was so good and we are so happy we luckily found you as you really did everything we wanted and feedback was amazing

Thanks so much again..
